

# Marcus Dygert Bio

After 17 years of pastoral ministry, my wife Brenda, three children, Paige, Hunter, & Peyton, and I moved from Houston, Texas, to Dillsburg, Pennsylvania. This move was prompted through a vision from my daughter and an encounter with Jesus physically walking into my bedroom to confirm that there was a new season coming. This season was for my family and me to be a part of Global Awakening. Even though we had never heard Dr. Clark speak, nor attended a Global Awakening event, we followed God's calling. During the end of my two years at Global Awakening School of Supernatural Ministry, Dr. Randy Clark asked me to travel with him for a subsequent two years.

I'm a passionate minister that desires everyone to live a life of miracles, not just miracles of physical healing, but miracles from living a full life IN CHRIST. I have seen God do miracles in many areas of my life, as have many others that have been involved in the ministries I have led.

Through the years, I have seen the favor of God in business and ministry. I have sat with governors, mayors, and parish presidents. Marketplace ministry is significant to me, as I have seen God do amazing things in my time doing work with Homeland Security, Department of Defense, and disaster mitigation.

In my conferences, I teach on cultivating a life in Christ that will empower Christians to believe again in the signs and wonders of the healing and prophetic ministries. I believe that the Church can grow even more through sustaining an ability to cultivate the lifestyle of miracles by long-term relationships.
